

MDHHS – MCIR Release Notes

Version 2022 – MCIR OLTP 2022 9.3.0.9.5–RFC 207644

Release Date: September 28, 2022

MCIR System Updates

MCIR now supports the ADU (adult) product intent for Strategic National Stockpile (SNS) vaccines. Specifically, the Moderna COVID-19 Bivalent Booster. * (Ref. #1563)

*Please note that the PED (pediatric) intent for Moderna vaccine is not approved by EUA.

Maintenance & Operations

Outbreak Inventory update

- When a provider office reconciled their Outbreak inventory and was beyond the balance "as of" date, clicking the Complete button triggered an "Error Processing Event" message. This has been corrected. Clicking the Complete button now closes out that balance period. (Ref. #1472)

Inventory Report

- Running the Physical Inventory Report was causing a system processing exception error. This has been resolved and now properly creates a "worksheet" to support counting inventory and compare counts. (Ref. #1582)

If you have questions or need assistance, please contact your Field Representative, MCIR Region, or MCIR SOM Help Desk at MDHHS-MCIRHelp@michigan.gov.
